

# 3500A

Starting Watts*	Running Watts**	Run time	Engine
3500	2700	13h 26m	Vanguard™ 205cc

## PERFORMANCE

Starting (W)*	3500
Running (W)**	2700
Voltage / Frequency	230V / 50Hz

## FEATURES

Noise level dB/7m @ 25% load	71
Run time @ 50% load	13h 26m
Alternator	Power Surge™ / AVR

---

Automatic low-oil shut down	Yes
-----------------------------	-----

---

Voltmeter	Yes
-----------	-----

---

Circuit breaker	Yes
-----------------	-----

---

Frame	32mm Steel tubing
-------	-------------------

---

Portability	Optional wheelkit and single drop handle
-------------	--

---

Dry weight (kg)	51
-----------------	----

---

L x W x H (cm)	63 x 43 x 54
----------------	--------------

---

#### SOCKETS

---

Household sockets	1x 230V / 16 Amp
-------------------	------------------

---

#### ENGINE

---

Engine type	VANGUARD™ OHV
-------------	---------------

---

Engine capacity	205cc
-----------------	-------

---

Cylinder	Cast Iron sleeve
----------	------------------

---

Fuel tank capacity (l)	15
------------------------	----

---

Fuel gauge	Yes
------------	-----

---

Starter	Recoil
---------	--------

---

Muffler	Quiet GenSet muffler
---------	----------------------

---
