

BLUE ARC MIG350 Inverter Compact

The **BLUE ARC** MIG 350 Compact is equipped with powerful IGBT components, a digital A/V display and multi process capabilities.

The inverter offers excellent welding characteristics and consistently reliable performance for highly demanding and repetitive weld cycles.

This high quality three-phase machine delivers an impressive 350 amps at 40% duty cycle, making the MIG 350 an excellent choice for medium duty fabrication work.

Key Features

- Multi function compact MIG MAG/MMA/ Lift TIG
- · Suitable for flux cored circuitry
- Advanced control circuitry
- Digital A/V display
- 4 roll wire feed drive
- · High duty cycle
- Suitable for 0.8/1.0/1.2mm wires
- Stable and reliable arc with minimal spatter
- Burn back control
- Spool gun interface
- · Wire inching feature
- VRD on MMA setting

Inverter power source, Operating instructions.

Technical Data

AC 400V - 50/60 Hz

Input Power 15

Range 15 - 38
