

BLUE ARC

BLUE ARC MIG 120

Welding has never been easier with the **BLUE ARC** MIG120. Simply set your wire size, adjust the Synergic power knob and it does the rest! It is perfect for small repairs and DIY welding projects.

This machine supports both gas-shielded MIG and gasless MIG wire, meaning you can easily run mild steel, stainless steel & flux-cored MIG wire. It makes this the perfect welder for your home workshop or out on the field. Weighing just 5.2kg, you'll be able to take it anywhere you need.
